

October 2011

Home Helpers President Emma Dickison participated in a pre-fundraiser to benefit Alzheimer's research that culminated in her wrapping a python around her neck at the Cincinnati Zoo. Home Helpers participated Oct. 1 in the Alzheimer's Association Walk to End Alzheimer's. To raise additional money, boxes

with the name of each brand president were circulated and people were encouraged to donate. The box containing the most money indicated the person who had to hold the python.
